About CIL&S

🔒 CIL&S is the acronym for China International Locks & Security Show. It's the thematic exhibition in China International Hardware Show (CIHS), which is the second largest hardware show all around the world. CIL&S will help lock and security companies develop domestic and oversea markets, create more new technology and build their own brand. CIL&S always aims to make a "barometer" for Chinese lock and security products companies and provides a "benchmark" for new technique.

🔒 There are about 500 domestic exhibitors include industrial leaders and many key enterprises from industrial bases like Wenzhou, Ningbo, Yongkang, Pujiang, Xiaolan of Zhongshan and Shenzhen in CIL&S 2012. Professional visitors were more than 50,000, overseas buyers were close to 3,500, 40% of them came from Europe and America, others came from the Middle East, Africa, Southeast Asia , etc . Well-known hardware purchasers, hotel decorating purchasers, building materials distributors, constructional engineering and estate project purchasers, famous manufacturing enterprises of doors & Windows, furniture, luggage, more than 20 building materials dealers and transnational retail groups will attend the exhibition.

🔒 Exhibitors are expected to reach 700 in CIL&S 2013, visitors will reach 50,000, overseas buyers are more than 3,500. Excellent purchasers from domestic and overseas will be invited to the exhibition, making the number of visitors in locks & security area increasing 20%; In 2013, we will continue to hold some activities, such as "Innovative locks display and promotion" ; "Top 10 locks enterprises" appraised by authority organizations; "Nationwide locks distributors meeting " and other activities. CIL&S 2013 will be more superior than ever in media promotion, services for exhibitors and other aspects.

🔒 Synchronous Exhibition——China International Hardware Show, attracted 2,400 excellent enterprises from domestic and overseas in 2012, professional visitors were 50,000, overseas visitors were 3,500. In the number of professional visitors, 30% were importers and exporters, 32% were manufacture end users, 20% were hardware agent and dealers, 13% came from hardware/building material/household chain supermarkets.
